(1) EBITDA can be calculated from the statement of income by deducting interest income, interest expenses and depreciation from the profit/(loss) before taxes.

(2) EBIT can be calculated from the statement of income by deducting interest income and interest expenses from the profit/(loss) before taxes.

(3) Value adjusted equity has been calculated through application of market value for assets and liabilities traded in quoted markets, and book value for other assets and liabilities. As traded assets and liabilities are carried at fair value in the balance sheet, the VAE per share equals total equity excluding non-controlling interests per outstanding share.

Vistin Pharma ASA (11.5% ownership):

Vistin Pharma is a Norwegian pharmaceutical company producing Active Pharmaceutical Ingredients (APIs) and solid dosage forms

for the global pharmaceutical industry. The company has key positions in the Metformin and Opioids markets, and a strong foundation for creating a highly efficient CMO business (contract manufacturing of tablets). Solid growth potentials exist in all the business segments. The spin-off from Weifa facilitates new growth opportunities due to a narrower business scope, increased visibility and being able to pursue own strategic agendas without the risk of compromises across business units.

The company has agreed to sell the opioids and tablet manufacturing business to TPI Enterprises Limited. The transaction is expected to be closed in the fourth quarter of 2017.

Upon completion of the transaction, Vistin Pharma ASA will be a pure play metformin producer, with a strong position in the global market and with significant growth ambitions.
